

MXHD MTP® Range

AFL's MXHD (Mini eXtra High Density) range of MTP enclosures and cassettes offer up to 144F capacity in 1RU.

The twelve cassette per rack unit design caters for 8F and 12F configurations which allows for ease of migration from 10G to 40G.

The enclosure system provides ease of front and rear cable management as well as provisions for circuit labelling using the optional front mounted hinged cable tray.

Features

- Mini Extra High Density of 144F per 1RU (based on MTP-LC)
- Range of BASE-12 modules available to suit application
- MTP elite connectors used as standard for Low Loss performance
- 19" rack mountable enclosures available in fixed 1RU

Applications

- Data Centres
- Structured Cabling Networks
- Storage Area Networks

MTP is a registered trademark of US Conec Ltd.
