

Type LLA-2PL123 Long Limiter Terminal Assembly for Paper Insulated Cable*

A cable terminal which serves as both a fuse and a connector. The fusible element has a time-current characteristic which will enable it to clear faults severe enough to cause cable insulation damage. Unlike a fuse, the limiter will not clear a circuit on system overloads of short period.

Elements

Type No.	Name
LLA-2P1	1 Insulating Sleeve
LLA-2P2	2 Shell
LLA-2PL3	3 Long Limiter Terminal
