Mini Fibre Optic Wall Enclosure – Defence

The FWE Mini Wall Enclosure is specifically designed for the direct termination of fibre and copper UTP cables. It incorporates added security features which make it well suited for Defence fibre-to-the-desk applications.

The enclosure is available in a variety of standard outlet configurations and colours. Custom configurations to house up to 48 fibres and 12 x RJ45 Clipsal/HPM outlets are available, MOQ will apply.

The professional appearance of this enclosure make it well suited for any office or corporate installation.

Features

- Small size makes it very versatile
- Clear acrylic cover with M4 screw and hole for anti-tamper security seal
- Knockout adapter and cable openings to suit SCD/LCQ and RJ45 Clipsal/HPM bezels
- 25mm Cable entry holes for wall mounted and concealed cable entry
- 2 x Nylon cable saddles for internal fibre management
- Designed to IP20

Applications

- Suitable for direct termination of riser fibre cable and UTP copper cable
- Remote cable terminations within building
- Defence requirements for identifying tampering or accidental fibre disconnections
- Fibre-to-the-desk applications
