

DOSSERT®

TYPE 34994E-EHV, 34995E-EHV

Bi-conductor and tri-conductor terminal is designed to be corona free for 345 kV and 500 kV service. Aluminum terminal can be connected to aluminum or copper terminals; pad conforms to NEMA standards. Bi-conductor and tri-conductor terminal is furnished as a complete assembly consisting of Bi-conductor and Tri-conductor terminals, two 90° EHV compression terminals and necessary aluminum hardware. Weights shown do not include compression terminals.

Material

Aluminum Alloy

Hardware

Yellow anodized aluminum nuts, bolts, and lockwashers.

Notes

For conductor adapters without terminals, do not include Die Size or Bore Code in part number. Example: for a Tri-conductor adapter to E pad, order: 34995EEHV.

DOSSERT® TYPE 34999E-EHV

Compression Terminal Connector (Three Cables to Flat)

Tri-conductor terminal is designed to be corona free for 345 kV and 500 kV service. Aluminum terminal can be connected to aluminum or copper terminals, pad conforms to NEMA standards. Tri-conductor terminal is furnished as complete assembly consisting of tri-conductor terminal, three 90° EHV compression terminals and necessary aluminum hardware. Complete assembly is ordered by specifying catalog number and size of stranded conductor.

Material

Aluminum Alloy

Hardware

Yellow anodized aluminum nuts, bolts, and lockwashers.

Notes

For conductor adapters without terminals, do not include Die Size or Bore Code in part number. Example: for a Tri-conductor adapter to E pad, ORDER: 34995EEHV.
