

## RDCT Series Round Drop Cable Tangent/Download

The Round Drop Cable Tangent accessory provides a means of suspending the round drop cable to structures where termination is undesirable. The accessory can also be used in download applications to guide round drop cables from the top of the structure to the splice box.

### Features

- Compressive elastomer material protects cable jacket
- Lag screw attachment hardware kit available
- Can be banded or bolted in download applications
- Max cable diameter: 0.336"
