

## Type NRLA-PL3 Long Limiter Link for Paper Insulated Cable\*

The long limiter link has a dual function of serving as a connecting coupler as well as a fuse. The fusible section determines the time-current characteristics of each size. This is made to close tolerances to insure consistent conformity with the fusing time-current curves. The limiter will not clear the circuit on system overloads but will clear the circuit on faults severe enough to cause cable insulation damage.

### Ordering Information

Catalog Number	Cable Size	Indents in Cable Cocket	Dimensions in inches		
			A**	B	L
NRLA21-PL3	4/0 STR	1	11/16	3	8 7/8
NRLA25-PL3	250 MCM	1	3/4	3 1/8	8 7/8
NRLA30-PL3	300 MCM	2	13/16	3 1/2	9 5/8
NRLA35-PL3	350 MCM	2	7/8	3 1/2	9 5/8
NRLA40-PL3	400 MCM	2	31/32	3 1/2	9 5/8
NRLA50-PL3	500 MCM	2	1 1/16	4 1/4	11 1/2
NRLA75-PL3	750 MCM	2	1 5/16	4 1/4	11 3/4

\* Closed end of sockets are sealed to make sockets oil tight.

\*\* Diameter

AFL's Dossert® product line offers a wide range of substation accessories in low voltage up to 765 kV applications in bronze or aluminum materials.
