

## ASCEND™ Optical Cassettes

ASCEND™ optical cassettes are the building blocks of the high density platform and are available in a wide range of configurations for multiple applications in BASE-8, BASE-12, and BASE-24 configurations.

Available in singlemode and multimode fiber types, ASCEND optical cassettes feature low loss MPO connectors and VFL-compatible shuttered LC adapters.

ASCEND cassettes are compatible with all ASCEND housings and can be independently installed from the front or rear of the housing onto a sliding tray system. This allows access to individual connections while minimizing disruption to other fiber connections.

### Applications

- Data Centers
- Central Offices
- Headends
- Structured Cabling Networks

### Features

- Wide variety of cassettes for multiple applications
  - Fanout
  - Patch
  - Splice
  - WDM
- BASE-8, BASE-12, and BASE-24 configurations
- SM, MM (OM3), and MM (OM4)
- Low loss MPO connectors
- VFL-compatible shuttered LC adapters
- Install independently from front or rear of housing
- Compatible with all ASCEND housings
